Repeater Status:

70 cm: Okay

2 m link: Okay

6 m: Unknown

APRS: Inop

Old Business: Fred reported that set up of a school radio club would be easy and he needs to find a High School teacher to sponsor the club. Mike discussed Field Day and mentioned that the remote controlled boats will be present on the lake again. Mike circulated an equipment list for Field Day participants to list equipment they plan to bring. Also discussed was a flyer to be sent to local area Hams advertizing the club's Field Day site and hours of operation. David will work the flyer and press release projects.

New business: Diane presented information from the Washington State Emergency Management Map Your Neighborhood project. This goes hand in hand with CERT activities and is a local area map of resources and areas of concerns located in a neighborhood. For more information go to: www.emd.wa.gov

Good of the Order: John and Fred did a demonstration of the N3FJP logging software that can be linked between computers for logging Field Day contacts. The club decided to purchase the software and to bring our laptop computers to the

May meeting so the software can be loaded. The Stanwood Hamfest is May 8th in Stanwood. For specific details go to: www.scarcwa.org

Adjournment: 09:10 by Mike WB7FJG
