WA State EOC Radio Net Control Script for OPS-3
Each Tuesday at 09:00 hrs local time
<u>SULTAN, WA</u>

Date: _____   Net Control: _____

Good morning, Sultan, Washington. This is the OPS-3 net for <__date__> serving the municipality of Sultan for the WA State EOC Radio Net.

My name is <__name__><__callsign__> serving as net control today.

The purpose of this net is to test equipment readiness and practice emergency operations in lieu of meeting at Sultan Fire Station 51, our designated EOC location. It is intended for Snohomish County ACS members who live near the vicinity of Sultan, but visitors are welcome to check in as well. The number of check-ins from this net will be passed on to the OPS-2 net conducted by the Snohomish County DEM at 09:30 today.

This net is being conducted on 145.650mhz simplex with a 103.5hz subaudible tone. When called, please respond with your callsign and indicate if you are using a handheld, mobile, or base radio station and the radio's power source.

Stand by for roll call:

KA7 BVS	_____ _____	
KJ7 EZB	_____ _____	Visitors (callsign & name):
KB7 GFL	_____ _____	
AC7 LC	_____ _____	
K7 QOG	_____ _____	

Total number of check-ins (including visitors): _____

Are there any late member check-ins?
Are there any visitors that would like to check in?
Is there any traffic for the net?

Thank you for participating in the net.
This net is now closed at <__time__>. This is net control <__callsign__>. 73!

Hold on to this form until it can be turned in to the Vice President
or added to the binder at the EOC.
